

## BFS MONTHLY TRAINING

By: Roy Galit

At BFS Healthcare, we are deeply committed to delivering exceptional care while prioritizing the safety and well-being of our patients and staff. To uphold this promise, we are excited to offer Manual Handling and Basic Life Support (BLS) Training, led by our expert instructor Manuel Carta.

These training sessions are designed to empower our team with essential skills for safe patient handling and swift, effective emergency responses. By mastering these vital techniques, our staff can confidently provide care that meets the highest professional standards.

In response to growing demand, we're thrilled to announce expanded training opportunities, with additional sessions now available each month.

## MANAGERS' MESSAGE

By: Rosendo Soriano

As we enter another exciting month, I want to take a moment to reflect on our recent achievements and share our focus for the coming weeks.

First, a heartfelt congratulations to the Filipino Nurses Association UK for their continued success and significant contributions to the healthcare community. It's inspiring to see how your hard work and dedication are making a difference in the lives of so many. BFS Healthcare is proud to be a part of this incredible journey, supporting initiatives that align with our mission of excellence and compassion in care.

Secondly, I am pleased to announce that our monthly BFS Training sessions are going strong. This month, we continue offering Manual Handling and Basic Life Support (BLS) training facilitated by the exceptional Manuel Carta. These training programs are pivotal in ensuring that our team remains equipped with the necessary skills to provide top-tier service. I encourage everyone to take advantage of these opportunities for professional growth.

Lastly, BFS Healthcare is actively hiring for Healthcare Assistants (HCAs) and Nurses. If you know of anyone passionate about delivering outstanding care and seeking to join a dynamic and supportive team, please encourage them to apply. We prioritize applicants within the UK who have at least six months of experience and a genuine commitment to making a difference in the healthcare field.
